

# Unilong Industry Co., Ltd

Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China  
Contact: +86-18653132120

**Product name:RALUFON (R) NAPE 14-90**

**CAS:120478-49-1**

**Molecular Weight:406.53492**

Item	Standard	Results
Appearance	Yellowish or brown viscous liquid	Brown viscous liquid
Assay	$\geq 75\%$	75.80%
PH	5-7	6
Dosage	0.5-2.0g/L	According to user's need
CMC	Not-specified	0.30%
Water Solubility	Miscible	Miscible in any proportion
Methanol Solubility	Miscible	Miscible in any proportion
Ethanol Solubility	Miscible	Miscible in any proportion
Methylbenzene Solubility	Miscible	Miscible in any proportion

## Application:

Polyethylene, Propylene (beta Naphthyl) (3-Sulfopropyl) Diether, Potassium Salt is a low foaming, cloud free anionic surfactant used as a purification agent in electroplating processes, especially in acidic zinc plating. As a sulfonate salt, it is resistant to hydrolysis and can be used in combination with non-ionic surfactants to increase cloud point and dissolve easily in benzylidene acetone, improving plating force. At the same time, it is suitable for operation at high temperatures, and the deposited coating is bright and corrosion-resistant

## Package:

Usually packed in 25kg/drum, and also can be do customized package.
