---

**Product name: Zinc naphthenate**

**CAS: 12001-85-3**

**Molecular Weight: 319.71**

| Item                   | Specification                           |                            | Item                   |
|------------------------|---|----------------------------|------------------------|
| Appearance             | Brown yellow uniform transparent liquid | Brown viscous liquid       | Appearance             |
| Metallic               | $4 \pm 0.2$                             | $8 \pm 0.2$                | Metallic               |
| Solubility in solvents | no                                      | no                         | Solubility in solvents |
| Solution stability     | No precipitates in the light            | No precipitates in the lig | Solution stability     |

## Application:

Drier and wetting agent in paints, varnishes, resins; insecticide; fungicide; mildew preventive; wood preservative; waterproofing textiles; insulating materials.

## Package:

Usually packed in 25kg/drum, and also can be do customized package.
