

TECHNICAL DATA SHEET

SPECIFICATION :

ITEM	STANDARD LIMITS
Product Name	Lotcure261
CAS	32760-80-8
Appearance	Yellow powder
Purity	98%
Melting point	80-84 °C
absorption peak	300nm;350nm;490nm

Packaging :

25kgs drum or pack as customer requirements.

Application:

It has a relatively wide range of ultraviolet absorption and can extend to the visible light region. Suitable for LED light sources, ultraviolet rays, X-rays. Can be used for UV curable coatings, inks, photoresists, PCB corrosion inhibitors, etc., and can also be used for water-based photopolymerization systems
