

Unilong Industry Co., Ltd

Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China
Contact: +86-18653132120

Product name: Polyglycerol-2 sesquistearate

CAS: 9009-32-9

Molecular Weight: 376.58

Item	Standard
Appearance	White or of- white powder or crystalline power,odorless
Solubility	Very soluble in N,N-Dimethylformamide,Soluble in methanol,Sparingly soluble inglacial acetic acid, Very slightly soluble inchloroform, Practically insoluble in water.
Melting Point	152°C~156°C

Application:

Polyglycerin-2-sesquistearate is commonly found in creams and lotions, contributing to their creamy texture and promoting an even distribution of active ingredients. Commonly used in a variety of makeup products, including foundation and BB cream, to achieve a smooth and mixable consistency. Among cleansers and makeup removers, Polyglyceryl-2 Sesquistearate helps create a formula that effectively cleanses the skin without causing dryness or irritation.

Package:

200kg/drum or according to customer requirements.
