

Unilong Industry Co., Ltd

Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China
Contact: +86-18653132120

Product name: Polyglycerol-4

CAS: 56491-53-3

Item	Standard
Appearance	Light yellow liquid
Product category	polyglycerol
Preservation condition	Store in a cool and well-ventilated place
Purity specification	99.96%

Application:

Tetracylglycerin has excellent moisturizing properties, is a good water-based solvent, can also be used as moisturizing moisturizer, softener, antifreeze, and can also be used in biodegradable plastics. Tetracylglycerol contains four hydroxyl groups, which is a kind of organic synthesis intermediate with various reaction possibilities such as esterification and etherification. Mainly used for the preparation of fatty acid esters, used as emulsifier and defoamer. It is widely used as cosmetic moisturizing agent, degradable plastic agent, clear agent, metal processing liquid agent, cement grinding agent, concrete agent, ink agent and so on.

Package:

180kg/drum or according to customer requirements.
