Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China
Contact: +86-18653132120

Product name: Sodium Pyrithione

CAS: 3811-73-2

Molecular weight: 151.16

NaH

Item	Standard
Melting point	-25 °C
Boiling point	109 °C
Density	1.22
Vapor pressure	0-0Pa at 25°C
Refractive index	1.4825
Maximum wavelength	334nm(H ₂ O)
LogP	-2.38 at 20°C and pH7

Application:

Sodium Pyrithione can be used in metal cutting fluid, rust prevention fluid, latex paint, adhesive, leather products, textile products, copper sheet paper and other fields. Sodium Pyrithione is used in various antifungal drugs and shampoo and skin care products in the pharmaceutical and chemical industry, which not only prevents the decay of products, but also can relieve itching and dandruff, which is very effective. Sodium Pyrithione can be used as an effective bactericide for fruit trees, peanuts, wheat, vegetables and other crops, and is also an excellent disinfectant for silkworm. Sodium Pyrithione can be prepared as disinfectants, cleansers and broad spectrum antifungal dermatological drugs for medical purposes.

Package:

25kg/drum or according to customer requirements.
