**Product name: Ester Quaternary Ammonium Salt**

**CAS:91995-81-2**

**Molecular Weight:0**

Item	Specification
EINECS	295-344-3
Related categories	Surfactant
CAS	91995-81-2
MW	0
Purity	98%

## Application:

Ester based quaternary ammonium salts are a new type of cationic surfactant that can be used as fabric softeners, fungicides, and more. Ester based quaternary ammonium salts have been increasingly widely used in the international market due to their excellent performance, low cost, and good biodegradability, and there is a trend towards gradually replacing alkyl quaternary ammonium salts.

## Package:

Customized packaging
