Add: No.2000 Shunhua Rd, High-Tech Zone , Jinan City, Shandong Province, China
Contact: +86-18653132120

Product name:potassium 2-hydroxy-4-methoxybenzoate

CAS: 152312-71-5

Molecular Weight: 206.24

Item	Specification
Storage conditions	Room temperature, stored in inert gas
PSA	69.59000
accurate mass	205.998138
melting point	N/A

Application:

Potassium 2-hydroxy-4-methoxybenzoate has a structure similar to salicylic acid and is a new type of medicinal whitening ingredient used in cosmetics. It has a whitening effect and is an effective ingredient in cosmetics. Potassium 2-hydroxy-4-methoxybenzoate can coordinate keratin metabolism, correct abnormal epidermal growth, promote the discharge of melanin, and achieve skin smoothness and whitening; It can also block the source of melanin production and enhance self-healing ability. When used in combination with various types of whitening products, it can improve the whitening effect and has good development prospects.
